FOUNDER MESSAGE

**ERKIN TENTISHEV
SATKYNBAEVICH**

Quality education is first and foremost a base for the rest of life, it is the most correct investment in yourself, in children and most important in the future of the country. The President of the country said many times that the most important resource that Kyrgyzstan possesses is a human resource. I could not disagree with this, we do not have those natural resources that some of our neighbors and partners have, but we have beautiful mountains, rivers of the lake and of course young, energetic people who can do everything, but only if they sincerely want it. And our institute helps these young people realize their dreams. I would like to note that we have done and are doing everything possible to ensure that our university is comfortable. I think that only in a favorable – comfortable environment we can achieve good results, and we are ready to provide this environment to all our students today. “

About Institute

S TENTISHEV ASIAN MEDICAL INSTITUTE ESTABLISHED IN 2004 IN KANT CITY, KYRGYZSTAN AND REGISTERED WITH MINISTRY OF KYRGYZSTAN UNDER REG NO233394562, IT IS PRIVATE MEDICAL INSTITUTION, LICENSED BY WHO, FAIMER MINISTRY OF EDUCATION AND SCIENCE, BOARD OF EDUCATIONFORGENERAL MEDICINE AND DENTISTRY DEPARTMENT.

➤ Mission of Institute :

IMPLEMENTATION OF EDUCATIONAL PROGRAMS THAT MEET INTERNATIONAL STANDARDS THROUGH HIGH-QUALITY TRAINING OF COMPETITIVE SPECIALISTS BY INTEGRATING THE BEST WORLD PRACTICE IN EDUCATION, SCIENCE AND CLINICS BASED ON THE PRINCIPLES OF EVIDENCE- BASED MEDICINE.

➤ MAIN GOALS OF ASMI:

- 1.Ensuring high competitiveness of the University in the domestic and foreign markets for the provision of quality educational services.
- 2.Implementation of the program of purity and export of education.
- 3.Introduction of the most modern technologies, improvement of information support of the educational process.
- 4.Development of the postgraduate forms of medical education and expansion of contacts with other medical universities ;
- 5.strengthening the material and technical base, expanding and improving the clinical base and medical centre
- 6.Instilling in each employee and teacher a conscience attitude to the performance of their official duties, since only if they perform their official duties qualitatively and continuously improve their pedagogical and professional qualification, further development of the university is possible;
7. Creation of a favourable moral and psychological climate in the team, contributing to the achievement of high results.
